

Minister of state Pratap Chandra Sarangi and Sanjiv Layek, executive secretary, India, WASME along with the winners

MSMES THE BACKBONE OF THE COUNTRY

During his address, Sanjiv Layek talked about the significant contribution that MSMEs have made to the country's growth

Sanjiv Layek, executive secretary, India, World Association for Small and Medium Enterprises (WASME), during his address said, "I congratulate all the winners from MSMEs here. I would thank the minister and Nitin Gadkari who have been motivational and inspirational. You all are the backbone of our economy. The MSME sector contributes 29% to the country's GDP. The minister has already set up the goal to make it 50%. The Make in India was the vision of the Prime Minister who has set the goal to make India a 5 trillion economy

by 2024 and make India as the manufacturing hub. Government has already taken many measures to promote MSMEs and recently the corporate tax has been reduced. MSMEs are one of the key drivers behind the country's growth. This sector has evolved as the most vibrant and dynamic engine of growth of India's economy over the past few decades and these self-funded organisations, private cooperative, private self-help group and cottage industries not only provide jobs opportunities to people but also ensure regional balance by taking industrialisation to rural and backward areas."

IMPORTANT TO LIVE BY ETHICS

During his address at the Make in India felicitation ceremony, Sarangi stressed on the need of doing right and following ethics while contributing to the country's growth

While addressing the gathering at the Make in India felicitation ceremony, Pratap Chandra Sarangi, minister of state in the government of India for micro, small and medium enterprises and animal husbandry, dairying and fisheries, offered his heartfelt gratitude for being invited to the event and talked

really start. Many leave in between and the remaining proceed and succeed on the way.

There are three types of people. The first category belongs to those who fall like dry leaves on the way and history has no time for them. The second category belongs to those who dare to march ahead against waves. History has some time for them and the third category belongs to those who start like a rock and make a way for themselves. These are the ones who do not

think about history, but create history for others.

In the present times, the country needs people who manufacture within the country, creating jobs and contributing to the country's growth. We should lead our lives with a special ambition to serve our country. We are a part of this country and we cannot be happy if most people are hungry and unhappy. However, we need to make sure that everything that we do, we follow ethics and we do not break away from it. Ethics are

needed everywhere. One can earn money for some time if they give it up, but they cannot continue for a long time. One should live by ethics and create a path of life-long success," said Sarangi.

Ethics are needed everywhere. One should live by ethics and create a path of life-long success

about how a harmonious growth is needed to ensure that the country grows along. "For ensuring the country's growth, young entrepreneurs like these award winners are instrumental. Many people joined this bandwagon, many failed and many succeeded. As they say, Rome was not built in a day. Many people just think about starting something but never
